

Damageless Reel Handling 30 kg - 30 t

BARTHOLOMY **VLU** VACULIFTER

The BARTHOLOMY VLU VACULIFTER

is an excellent unit for lifting and storing reels up to a maximum weight of: **Gmax 20.000 kg**

Standard core sizes are:

d 70/76 mm and **d 150/152 mm**

Other gripper / centering probe sizes on request.

Maximum reel width: **Bmax: 4.000 mm**

Suction of reel happens automatically. An emergency back-up unit secures vacuum up to 1 hour in case of power failure.

Precise positioning, fast crane travel, no damage of reel.

Gripping of reels with different reel diameter is possible.
